

IDEAL CLINIC REALISATION AND MAINTENANCE FRAMEWORK WORKSHOP

***EXPERIENCES OF IMPLEMENTING ICRM
PROGRAM SINCE THE ALIGNMENT WITH OHSC***

DATE : 25/03/2024

***PRESENTED BY: MISS PN MINI
ECDOH***

Strengths	Weaknesses	GAPS
The continued review of the ICRM assessment tool results in facilities complying easily with OHSC.	OHSC selects elements of focus, but ICRM does a comprehensive assessment	OHSC to be aligned with one of the ICRM assessments period
Tool alignment between ICRM and OHSC. Many PHC facilities are compliant with OHSC Standards after the implementation of ICRM assessments		
The 20-day grace period by OHSC after the preliminary results are reflected in the system, makes it easier for the facilities to improve. Facility Manager can update the status within the 1 st quarter and also PPTICRM will override the FM SD during the 2 nd quarter SD or regular updated whenever there is a change		
The compendium with OHSC has also assisted facilities a lot in preparing the facilities to be ready with areas to be assessed and where to exercise emphasis otherwise the tools talk to each other.		
ICRM emphasis on Emergency trolleys and NNVs has made our rural facility able to resuscitate people well BLS training improves the skills of the clinicians	Expired surgical- ET tubes, Guedel airway, different types of catheters and others.	Difficult to get all surgical equipment –ET tubes, Guedel's, catheters etc. Proposed that NDOH have tender centralized to get the surgical items.
OHSC makes NHI a reality and gives OM's confidence that boosts the confidence and self-esteem of the facility OM's as well	Difficult for all facilities to have AEDs and those inside hospitals (Gateways) to be exempted from having AEDs(Proposal)	Use of different types of AEDs, results in difficulty getting AED Pads when expired.
OHSC requires medicines protocol for each facility	ICRM requires the list of medications as off the checklist some are out-coded in PHC	

Districts	Number of Facilities	Number of facilities assessed for IC	Facilities with IC status	Ideal clinic percentage	Number of facilities inspected	Certified compliant OHSC
Alfred Nzo	75	75	27	36%	33	9
Amathole	148	148	105	71%	77	60
BCMM	79	78	35	44%	38	29
Chris Hani	159	158	32	20%	61	26
Joe Gqabi	52	51	20	38%	11	9
NMM	48	48	43	90%	29	22
OR Tambo	143	150	98	64%	125	50
Sarah Baartman	63	62	48	76%	17	8
Eastern Cape	777	770	408	53%	391	216
